VOLUME 51

January-June, 1975

No. 1 (January)

EDITORIAL:

Echocardiographic Examination of the Left Ventricle. Harvey Feigenbaum	1
---	---

SPECIAL ARTICLE:

Deep Vein Thrombosis: Detection and Prevention. V. V. Kakkar	8
---	---

ORIGINAL ARTICLES:

Anatomically Corrected Malposition of the Great Arteries [S,D,L]. Richard Van Praagh, Robert E. Durnin, Hubert Jockin, Henry R. Wagner, Michael Korn, Hrair Garabedian, Masahiko Ando, and A. Louis Calder ..	20
Transposition of the Great Arteries. Results of Treatment with Early Palliation and Late Intracardiac Repair. Howard P. Gutgesell and Dan G. McNamara	32
Ultrastructure of Crista Supraventricularis Muscle in Patients with Congenital Heart Diseases Associated with Right Ventricular Outflow Tract Obstruction. Michael Jones, Victor J. Ferrans, Andrew G. Morrow, and William C. Roberts	39
Problems in Recognition of Conduction Disturbances in the His Bundle. Reinier M. Schuilenburg and Dirk Durrer	68
Analysis of Re-entry Mechanisms in Three Patients with Concealed Wolff-Parkinson-White Syndrome. Helmut Neuss, Martin Schlepper, and Jochen Thormann	75
Echocardiographic Analysis of Mitral Valve Motion After Acute Myocardial Infarction. Gary A. Bergeron, Michael V. Cohen, Louis E. Teichholz, and Richard Gorlin	82
The Echocardiogram of the Anterior Leaflet of the Mitral Valve: Correlation with Hemodynamic and Cineerentgenographic Studies in Dogs. Gerald M. Pohost, Robert E. Dinsmore, Joel J. Rubenstein, Dennis D. O'Keefe, R. Nathan Grantham, Hugh E. Scully, Edward A. Beierholm, James W. Frederiksen, Myron L. Weisfeldt, and Willard M. Daggett	88
The Echocardiographic Determination of Mitral Valve Opening and Closure: Correlation with Hemodynamic Studies in Man. Joel J. Rubenstein, Gerald M. Pohost, Robert E. Dinsmore, and J. Warren Harthorne ..	98
A Study of the Dynamic Relations Between the Mitral Valve Echogram and Phasic Mitral Flow. Shlomo Laniado, Edward Yellin, Morris Kotler, Leonard Levy, Jona Stadler, and Reuven Terdiman	104
Systolic Time Intervals by Echocardiography. Miltiadis A. Stefadouros, A. Calhoun Witham, with the technical assistance of Frieda Stefadouros	114
Coronary Collateral Function in Patients without Occlusive Coronary Artery Disease. Robert E. Goldstein, Lawrence L. Michaelis, Andrew G. Morrow, and Stephen E. Epstein	118
Myocardial Blood Flow Response to Isometric (Handgrip) and Treadmill Exercise in Coronary Artery Disease. Daniel K. Lowe, Donald A. Rothbaum, Paul L. McHenry, Betty C. Corya, and Suzanne B. Knoebel ..	126
Intravenous Nitroglycerin in Acute Myocardial Infarction. John T. Flaherty, Philip R. Reid, David T. Kelly, Dean R. Taylor, Myron L. Weisfeldt, and Bertram Pitt	132
Improvement in Left Ventricular Wall Motion Following Nitroglycerin. John H. McAnulty, Mark T. Hattenhauer, Josef Rösch, Frank E. Kloster, and Shahbudin H. Rahimtoola	140
Prognosis in Coronary Artery Disease: Angiographic, Hemodynamic and Clinical Factors. Gary W. Burggraf and John O. Parker	146
Mechanism of Normal Splitting of the Second Heart Sound. Edward I. Curtiss, Robert G. Matthews, and James A. Shaver	157
Postural Changes in Left Ventricular and Mitral Valvular Dynamics in the Systolic Click-Late Systolic Murmur Syndrome. Mary E. Fontana, Charles F. Wooley, Richard F. Leighton, and Richard P. Lewis	165

CLINICOPATHOLOGIC CORRELATIONS:

Bacterial Endocarditis in Subjects 60 Years of Age and Older. Rudy Thell, Franklin H. Martin, and Jesse E. Edwards	174
---	-----

RADIOLOGY:

The Abnormal Left Hilum. Timothy A. Lind, Michael J. Pitt, Bertron M. Groves, James E. White, and Edward Quinn	183
Visualization and Measurement of the Main Bronchi by Tomography as an Objective Indicator of Thoracic Situs in Congenital Heart Disease. John B. Partridge, Olive Scott, Philip B. Deverall, and Fergus J. Macartney	188

(Continued)

CASE REPORT:

- Return of Normal Conduction after Paroxysmal Heart Block: Report of a Case with Major Discordance of Electrophysiological and Pathological Findings.** Kenneth M. Rosen, Delon Wu, Charles Kanakis, Jr., Pablo Denes, Saroja Bharati, and Maurice Lev 197

BOOK REVIEWS 205**NEWS FROM THE AMERICAN HEART ASSOCIATION** Page 1**ABSTRACTS FROM THE U.S.S.R.** Page 5

No. 2 (February)

EDITORIAL:

- It's Time To Be Practical.** Donald S. Fredrickson 209

SPECIAL ARTICLE:

- A Letter from Sir James Mackenzie to Dr. Carter Smith, Sr.** Carter Smith, Sr., and Mark Silverman 212

ORIGINAL ARTICLES:

- Thickenings in the Coronary Arteries in Infancy as an Indication of Genetic Factors in Coronary Heart Disease.** Erkki Pesonen, Reijo Norio, and Seppo Sarna 218
- Familial Atrioventricular Block: An Autosomal Dominant Trait.** Menashe B. Waxman, John D. Catching, Clarence H. Feldorhof, Eugene Downar, Malcolm D. Silver, and Michael M. Abbott 226
- Demonstration of Sustained Sinus and Atrial Re-entry as a Mechanism of Paroxysmal Supraventricular Tachycardia.** Delon Wu, Fernando Amat-y-Leon, Pablo Denes, Ramesh C. Dhingra, Raymond J. Pietras, and Kenneth M. Rosen 234
- Electrophysiological Observations in Patients with Rate Dependent Bundle Branch Block.** Pablo Denes, Delon Wu, Ramesh C. Dhingra, Fernando Amat-y-Leon, Christopher Wyndham, and Kenneth M. Rosen 244
- Effect of Digoxin on Atrioventricular Conduction: Studies in Patients With and Without Cardiac Autonomic Innervation.** D. J. Goodman, R. M. Rossen, D. S. Cannom, A. K. Rider, and D. C. Harrison 251
- Genesis of High Frequency Notching of QRS Complexes in an *In Vivo* Cardiac Model.** Condon R. VanderArk and Ernest W. Reynolds 257
- Mitral Commissurotomy versus Replacement: Preoperative Evaluation by Echocardiography.** Navin C. Nanda, Raymond Gramiak, Pravin M. Shah, and James A. DeWeese 263
- Echocardiography of the Tricuspid Valve in Congenital Left Ventricular — Right Atrial Communication.** Navin C. Nanda, Raymond Gramiak, and James A. Manning 268
- Echographic Assessment of Atrial Transport, Mitral Movement, and Ventricular Performance Following Electroversion of Supra-ventricular Arrhythmias.** Anthony N. DeMaria, James E. Lies, James F. King, Richard R. Miller, Ezra A. Amsterdam, and Dean T. Mason 273
- Differential Diagnosis of Anomalies of the Great Arteries by Real-time Two-dimensional Echocardiography.** Walter L. Henry, Barry J. Maron, James M. Griffith, David R. Redwood, and Stephen E. Epstein 283
- Echocardiographic Observations on the Mechanism of Production of the Second Heart Sound.** Premindra A. N. Chandraratna, Jose M. Lopez, and Lawrence S. Cohen, with the technical assistance of Dale Gindlesperger 292
- Echographic Determination of Left Ventricular Volumes in Pediatric Patients.** Richard A. Meyer, James Stockert, and Samuel Kaplan 297
- Measurement of Right and Left Ventricular Systolic Time Intervals by Echocardiography.** Stephen Hirschfeld, Richard Meyer, David C. Schwartz, Joan Korfhagen, and Samuel Kaplan 304
- A Comparison of Systolic Time Intervals Derived from the Central Aortic Pressure and from the External Carotid Pulse Tracing.** Frans Van de Werf, Jan Piessens, Hugo Kesteloot, and Hilaire De Geest 310
- Dynamic Determinants of Left Ventricular Diastolic Pressure-volume Relations in Man.** William H. Gaasch, James S. Cole, Miguel A. Quinones, and James K. Alexander 317
- The Apical A Wave versus the Fourth Heart Sound in Assessing the Severity of Aortic Stenosis.** Morton A. Kavalier, Janie Stewart, and Morton E. Tavel 324
- Clinical Use of Sodium Nitroprusside in Chronic Ischemic Heart Disease: Effects on Peripheral Vascular Resistance and Venous Tone and on Ventricular Volume, Pump and Mechanical Performance.** Richard R. Miller, Louis A. Vismara, Robert Zelis, Ezra A. Amsterdam, and Dean T. Mason 328
- Transfemoral Plug Closure of Patent Ductus Arteriosus: Experiences in 61 Consecutive Cases Treated without Thoracotomy.** Kenji Sato, Masaoki Fujino, Takahiro Kozuka, Yasuaki Naito, Soichiro Kitamura, Susumu Nakano, Choken Ohyama, and Yasunaru Kawashima 337
- Hemodynamic Features of Prolapsing and Nonprolapsing Left Atrial Myxoma.** Ruey J. Sung, Ali R. Ghahramani, Stephen M. Mallon, Stanley E. Richter, Leonard S. Sommer, Stuart Gottlieb, and Robert J. Myerburg 342
- Pulmonary Edema Related to Changes in Colloid Osmotic and Pulmonary Artery Wedge Pressure in Patients after Acute Myocardial Infarction.** Protasio L. da Luz, Herbert Shubin, Max Harry Weil, Edwin Jacobson, and Leon Stein 350
- Platelet Survival Time Following Aortic Valve Replacement.** Peter Steele, Hugh Weilly, Hywel Davies, George Pappas, and Edward Genton 358
- Predictive Implications of Stress Testing: Follow-up of 2700 Subjects after Maximum Treadmill Stress Testing.** Myrvin H. Ellestad and K. C. Wan 363
- Learned Control of Blood Pressure in Patients with High Blood Pressure.** Donald A. Kristt and Bernard T. Engel 370
- CLINICOPATHOLOGIC CORRELATIONS:**
- De Subitaneis Mortibus. X. Familial Congenital Heart Block.** Thomas N. James, Robert C. McKone, and Allen S. Hudspeth 379

(Continued)

RADIOLOGY:

- The Deceptive Aortic Root.** Manuel Viamonte, Jr., Manuel Camacho, Donald R. Cahill, Maria Viamonte, and Kurt Mori 389

LETTERS TO THE EDITOR:

- First and Second versus Second and Third Exercise Tests.** David H. Spodick; John W. Kirklin 394
Author Corrects Variant Interpretation. J. F. Goodwin 395
Ultrasound Evaluation of SASM. Nobuyoshi Kawai; A. D. Hagan 395
Techniques of Measuring Regional Wall Motion. Allan Sniderman, Derek G. F. Marpole, Ernest L. Fallen; Richard F. Leighton 395
Postoperative Myocardial Infarction. Erich Vormittag 396
Estimating Collateral Circulation. David C. Levin; Robyn J. Carroll, Mario S. Verani, Herman L. Falsetti 397

NEWS FROM THE AMERICAN HEART ASSOCIATION *Page 1*

No. 3 (March)

EDITORIAL:

- Optimal Cardiac Care: Achievable?** Mary Allen Engle 399

ORIGINAL ARTICLES:

- Diastolic Murmurs in the Presence of Starr-Edwards Mitral Prosthesis: With Emphasis on the Genesis of the Austin Flint Murmur.** Richard A. Schaefer, John H. McNulty, Albert Starr, Shahbudin H. Rahimtoola 402
The Course of Acute Myocardial Infarction: Feasibility of Early Discharge of the Uncomplicated Patient. J. Frederick McNeer, Andrew G. Wallace, Galen S. Wagner, C. Frank Starmer, and Robert A. Rosati 410
Relation between Contractile Reserve and Prognosis in Patients with Coronary Artery Disease and a Depressed Ejection Fraction. Peter F. Cohn, Richard Gorlin, Michael V. Herman, Edmund H. Sonnenblick, Howard R. Horn, Lawrence H. Cohn, and John J. Collins, Jr. 414
Hemodynamic Effects of Nitroglycerin in Acute Myocardial Infarction: Decrease in Ventricular Preload at the Expense of Cardiac Output. David O. Williams, Ezra A. Amsterdam, and Dean T. Mason 421
Response of the Left Ventricle in Coronary Artery Disease to Postextrasystolic Potentiation. Robert I. Hamby, Agop Aintablian, B. George Wisoff, and Marvin L. Hartstein 428
Acute Subendocardial Myocardial Infarction in Patients. Its Detection by Technetium 99-m Stannous Pyrophosphate Myocardial Scintigrams. James T. Willerson, Robert W. Parkey, Frederick J. Bonte, Steven L. Myer, and Ernest W. Stokely 436
The Effect of Intracoronary Injection of Contrast Medium upon Coronary Blood Flow. Mayer Bassan, William Ganz, Harold S. Marcus, and H. J. C. Swan 442
Histopathology of the Conduction System in Sudden Death from Coronary Heart Disease. J. T. Lie 446
Acute Myocardial Infarction in Toxic Cardiomyopathy Without Coronary Obstruction. Timothy J. Regan, Chia F. Wu, Allen B. Weisse, Christos B. Moschos, S. Sultan Ahmed, Michael M. Lyons, and Bunyad Haider 453
The Omnicardiogram: Study of a Proposed Method for Detecting Coronary Heart Disease in an Asymptomatic Population. C. Paul Nay, William B. Kannel, William P. Castelli, and Patricia M. McNamara 462
Vectorcardiographic Diagnosis and Electrocardiographic Correlation in Left Ventricular Asynergy Due to Coronary Artery Disease. I. Severe Asynergy of the Anterior and Apical Segments. Eliot Young, Peter F. Cohn, Richard Gorlin, Harold D. Levine, and Michael V. Herman 467
A Clinical and Follow-up Study of Right and Left Bundle Branch Block. Michael Rotman and John H. Triebwasser 477
Comparison of Cardiac Refractory Periods in Children and Adults. Ira W. DuBrow, Elizabeth A. Fisher, Fernando Amat-y-Leon, Pablo Denes, Delon Wu, Kenneth Rosen, and Alois R. Hastreiter 485
Multiform Ventricular Ectopic Rhythm. Evidence for Multiple Parasystolic Activity. Nabil El-Sherif and Philip Samet 492
Echocardiographic Observations on Ventricular Septal Rupture Complicating Acute Myocardial Infarction. P. A. N. Chandraratna, P. K. Balachandran, P. M. Shah, and M. Hodges 506
Posterior Mitral Leaflet Motion in Mitral Stenosis. Jorge A. Levisman, Abdul S. Abbasi, and Morton Lee Pearce 511
Echocardiographic Features of Subpulmonic Obstruction in Dextro-transposition of the Great Vessels. Navin C. Nanda, Raymond Gramiak, James A. Manning, and Elliot O. Lipchik 515
Simultaneous Echocardiographic — Phonocardiographic Recordings at Rest and During Amyl Nitrite Administration in Patients with Mitral Valve Prolapse. Roger A. Winkle, Daniel J. Goodman, and Richard L. Popp 522
A Simplified Method for Quantitating Left-to-Right Shunts from Arterial Dilution Curves. Benjamin E. Victorica and Ira H. Gessner 530
Acute Effects of Low Doses of Alcohol on Left Ventricular Function Measured by Echocardiography. Cedar E. Delgado, Nicholas J. Fortuin, and Richard S. Ross 535
On the Clinical Value of Calibrated Displacement Apexcardiography. Boudewijn Denef, Roger Popeye, Hilaire De Geest, Hugo Kesteloot 541

CASE REPORTS:

- Anomalous Left Coronary Artery from Pulmonary Artery. An Eight Year Angiographic Follow-up after Saphenous Vein Bypass Graft.** Bernard R. Chaitman, Martjal G. Bourassa, Jacques Lesperance, and Pierre Grondin 552
Premature Pulmonic Valve Opening Following Sinus of Valsalva Aneurysm Rupture into the Right Atrium. Arthur E. Weyman, James C. Dillon, Harvey Feigenbaum, and Sonia Chang 556

(Continued)

RADIOLOGY:

- Results of Routine Preoperative Coronary Angiography in Tetralogy of Fallot.** Kenneth E. Fellows, Michael D. Freed, John F. Keane, Richard Van Praagh, William F. Bernhard, and Aldo C. Castenada 561

CLINICOPATHOLOGIC CORRELATIONS:

- True and False Left Ventricular Aneurysms: Propensity for the Latter to Rupture.** Zeev Vlodaver, John I. Coe, and Jesse E. Edwards 567

BOOK REVIEWS:

- NEWS FROM AMERICAN HEART ASSOCIATION** Page 1

No. 4 (April)

EDITORIALS:

- IHSS — HOCM — MSS — ASH?** Pravin M. Shah 577

ORIGINAL ARTICLES:

- A Forty-year Review of Bacterial Endocarditis in Infancy and Childhood.** David H. Johnson, Amnon Rosenthal, and Alexander S. Nadas 581
- Diastolic Vibration of the Interventricular Septum in Aortic Insufficiency.** Geoffrey D. Cope, Joseph A. Kisslo, Michael L. Johnson, and Sondra Myers 589
- Echocardiographic Recognition of the Mitral Valve-Posterior Aortic Wall Relationship.** Brian L. Strunk, Stephen B. Guss, Richard E. Hicks, and Morris N. Kotler 594
- Echocardiographic Features of Total Anomalous Pulmonary Venous Connection.** Marc Paquet and Howard Gutgesell 599
- Precursors of Sudden Coronary Death: Factors Related to the Incidence of Sudden Death.** William B. Kannel, Joseph T. Doyle, Patricia M. McNamara, Phillip Quickenton, and Tavia Gordon 606
- Clinical Measurement of Myocardial Infarct Size: Modification of a Method for the Estimation of Total Creatine Phosphokinase Release after Myocardial Infarction.** Robin M. Norris, R. M. L. Whitlock, Caran Barratt-Boyes, and Charles W. Small 614
- The Effect of Hypoglycemia on Myocardial Ischemic Injury During Acute Experimental Coronary Artery Occlusion.** Peter Libby, Peter R. Maroko, and Eugene Braunwald 621
- Persistence of MB Isoenzyme of Creatine Phosphokinase in the Serum after Minor Isotrogenic Cardiac Trauma: Absence of Postmortem Evidence of Myocardial Infarction.** Andrew M. Tonkin, Robert M. Lester, C. Earl Guthrow, Charles R. Roe, Donald B. Hackel, and Galen S. Wagner 627
- Effects of Nitroglycerin and Nitroglycerin-Methoxamine During Acute Myocardial Ischemia in Dogs with Pre-existing Multivessel Coronary Occlusive Disease.** Richard W. Myers, James L. Scherer, Richard A. Goldstein, Robert E. Goldstein, Kenneth M. Kent, and Stephen E. Epstein 632
- Thallium-201 for Myocardial Imaging: Relation of Thallium-201 to Regional Myocardial Perfusion.** H. William Strauss, Katherine Harrison, James K. Langan, Elliot Lebowitz, and Bertram Pitt 641
- Three Variants of Concealed Bigeminy.** Matthew N. Levy, Dale S. Adler, and James R. Levy 646
- Modification of Ventricular Fibrillation Latency Following Coronary Artery Occlusion in the Conscious Pig: The Effects of Psychological Stress and Beta-adrenergic Blockade.** James E. Skinner, J. T. Lie, and M. L. Entman 656
- Primary T Wave Abnormalities Caused by Uniform and Regional Shortening of Ventricular Monophasic Action Potential in Dog.** Gernot Autenrieth, Borys Surawicz, Chien Suu Kuo, and Makoto Arita 668
- The Evaluation of Left Ventricular Function in Man: A Comparison of Methods.** Thomas H. Kreulen, Alfred A. Bove, Michael T. McDonough, Milton J. Sands, and James F. Spann 677
- Echocardiographic Determination of Left Ventricular Stress-Velocity Relations in Man: With Reference to the Effects of Loading and Contractility.** Miguel A. Quinones, William H. Gaasch, James S. Cole, and James K. Alexander 689
- Circulatory and Metabolic Effects of Glycerol Infusion in Patients with Recent Cerebral Infarction.** John Stirling Meyer, Yoshifumi Itoh, Shigemichi Okamoto, K. M. A. Welch, Ninan T. Mathew, Erwin O. Ott, Saburo Sakaki, Yohsuke Miyakawa, Eva Chabi, and Arthur Dale Ericsson 701
- Serum Digtoxin Concentrations in Infants and Children.** Andrea C. V. Giardina, Kathryn H. Ehlers, John B. Morrison, and Mary Allen Engle 713
- Augmentation of Myocardial Digoxin Concentration in Hemorrhagic Shock.** Brian L. Loyd and Roger R. Taylor 718
- The Course of the Conduction System in Single Ventricle with Inverted (L-) Loop and Inverted (L-) Transposition.** Saroja Bharati and Maurice Lev 723
- Congenital Mitral Valve Disease in Transposition of the Great Arteries.** Glenn C. Rosenquist, J. Stark, and J. F. N. Taylor 731
- Reduced Baroreceptor Sensitivity in Borderline Hypertension.** Akira Takeshita, Senichi Tanaka, and Motoomi Nakamura 738

(Continued)

CLINICOPATHOLOGIC CORRELATIONS:

- De Subitaneis Mortibus. XI. Young Girl with Palpitations.** Thomas N. James, Ralph J. Marilley, Jr., and Henry J. L. Marriott 743

RADIOLOGY:

- Catheter Positions in Congenital Cardiac Malformations.** Richard M. Taketa, David J. Sahn, Allan L. Simon, Stanley J. Pappelbaum, and William F. Friedman 749

BOOK REVIEWS:

EDITORIAL:	
Radioisotopic Studies of the Regional Myocardial Circulation. Paul J. Cannon	955
ORIGINAL ARTICLES:	
Dose Response Effectiveness of Propranolol for the Treatment of Angina Pectoris. Edwin L. Alderman, Richard O. Davies, John J. Crowley, Mario G. Lopes, Jeff Z. Brooker, Joel P. Friedman, Anthony F. Graham, Harvey J. Matloff, and Donald C. Harrison	964
Anomalous Left Coronary Artery Originating From the Pulmonary Artery: Report on 15 Cases. Joseph Askenazi and Alexander S. Nadas	976
The Effects of Right Atrial and Ventricular Pacing on the Auscultatory Findings in Patients with Mitral Valve Prolapse. William D. Towne, Shahbudin H. Rahimtoola, M. Ziad Sinno, Henry S. Loeb, Kenneth M. Rosen, Rolf M. Gunnar	988
Unusual Examples of Supraventricular Re-entrant Tachycardias. Hein J. J. Wellens	997
Electrode Catheter Recordings during Malignant Ventricular Arrhythmia Following Experimental Acute Myocardial Ischemia. Evidence for Re-entry due to Conduction Delay and Block in Ischemic Myocardium. Nabil El-Sherif, Benjamin J. Scherlag, and Ralph Lazzara	1003
Transient ST-Segment Elevation in Unstable Angina: Clinical and Hemodynamic Significance. Gary D. Plotnick and C. Richard Conti	1015
Double Accessory Pathways in Wolff-Parkinson-White Syndrome. Agustin Castellanos, Abdul S. Agha, Benjamin Befeler, and Robert J. Myerburg	1020
Postoperative Left Anterior Hemiblock and Right Bundle Branch Block Following Repair of Tetralogy of Fallot: Clinical and Etiologic Considerations. Carl N. Steeg, Ehud Krongrad, Farzin Davachi, Frederick O. Bowman, Jr., James R. Malm, and Welton M. Gersony	1026
Purkinje Repolarization as a Possible Cause of the U Wave in the Electrocardiogram. Yoshio Watanabe	1030
Follow-up of Mass Screening for Coronary Risk Factors in 1817 Adults. Wilbert S. Aronow, William H. Allen, Dominic De Cristofaro, and Suzanne Ungermann	1038
Technetium Stannous Pyrophosphate Myocardial Scintigrams in Patients with Chest Pain of Varying Etiology. James T. Willerson, Robert W. Parkey, Frederick J. Bonte, Steven L. Meyer, James M. Atkins, and Ernest M. Stokely	1046
The Effect of Cold Air Inhalation on Angina Pectoris and Myocardial Oxygen Supply. Mark Hattenhauer and William A. Neill	1053
Pathology of Stable and Unstable Angina Pectoris. Richard B. Guthrie, Zeev Vlodaver, Demetre M. Nicoloff, and Jesse E. Edwards	1059
Hemodynamic and Prognostic Findings in Patients with Transmural and Nontransmural Infarction. Pierre Rigo, Malcolm Murray, Dean R. Taylor, Myron L. Weisfeldt, H. W. Strauss, and Bertram Pitt	1064
Ventricular Function Before and After Direct Revascularization Surgery: A Proposal for an Index of Vascularization to Correlate Angiographic and Ventriculographic Findings. Jay A. Levine, David J. Bechtel, Peter F. Cohn, Michael V. Herman, Richard Gorlin, Lawrence H. Cohn, and John J. Collins, Jr.	1071
Observations on Blood Viscosity Changes after Acute Myocardial Infarction. Kung-ming Jan, Shu Chien, and J. Thomas Bigger, Jr.	1079
Compensatory Changes of the Distal Coronary Vascular Bed During Progressive Coronary Constriction. K. Lance Gould, Kirk Lipscomb, and Cynthia Calvert	1085
Influence of Hypertonic Mannitol on Ventricular Performance and Coronary Blood Flow in Patients. James T. Willerson, George C. Curry, James M. Atkins, Robert Parkey, and Lawrence D. Horwitz	1095
Continuous Recording of Direct Arterial Pressure in Unrestricted Patients: Its Role in the Diagnosis and Management of High Blood Pressure. William A. Littler, A. John Honour, David J. Pugsley, and Peter Sleight	1101
Return of Elevated Blood Pressure after Withdrawal of Antihypertensive Drugs. Veterans Administration Cooperative Study Group on Antihypertensive Agents	1107
Splanchnic Blood Flow in Essential Hypertension and in Hypertensive Patients with Renal Artery Stenosis. Franz H. Messerli, Jacques Genest, Wojciech Nowaczynski, Otto Kuchel, Masanobu Honda, Yves Latour, and Guy Dumont	1114

(Continued)

Smoking and Fibrinolysis. Lars Janzon and Inga Marie Nilsson	1120
Great Vessel, Cardiac Chamber, and Wall Growth Patterns in Normal Children. Michael L. Epstein, Stanley J. Goldberg, Hugh D. Allen, Lee Konecke, and Janice Wood	1124
Echocardiography of the Intra-atrial Baffle in Dextro-transposition of the Great Vessels. Navin C. Nanda, Scott Stewart, Raymond Gramiak, and James A. Manning	1130
Radionuclide Angiocardiography: Improved Diagnosis and Quantitation of Left-to-Right Shunts Using Area Ratio Techniques in Children. P. O. Alderson, R. G. Jost, A. W. Strauss, S. Boonvisut, and J. Markham	1136
The Basis for Differences in Ethanol-Induced Myocardial Depression in Normal Subjects. Gerald C. Timmis, Renato G. Ramos, Seymour Gordon, and V. Garadharan	1144
CLINICOPATHOLOGIC CORRELATIONS:	
De Subitaneis Mortibus. XII. Asymmetrical Hypertrophy of the Heart. Thomas N. James and Thomas K. Marshall	1149
BOOK REVIEWS	1167
LETTERS TO THE EDITOR:	
Nonsurgical Closure of PDA. Jami C. Shakibi, Iraj Aryanpur, W. Porstmann	1170
On Prophylactic Pacing. John W. Lister, Arthur J. Gosselin; K. J. Lie, Hein J. Wellens, Reinier M. Schuilenburg, Anton E. Becker and Dirk Durrer	1170
Mid-Systolic AV Closure in IHSS. Joram Glaser; Ronald M. Rossen and Richard L. Popp	1172
Two Papers on BBB During Tachycardia. Robert Slama; R. A. J. Spurrell, D. M. Krikler and E. Sowton	1172
Heparin and Arterial Thrombosis in Children. Donald A. Girod, Roger A. Hurwitz; Michael D. Freed, Amnon Rosenthal and John F. Keane	1173
NEWS FROM THE AMERICAN HEART ASSOCIATION	Page 1
Report of the Inter-Society Commission for Heart Disease Resources: Optimal Resources for Ultrasonic Examination of the Heart	A-1

SUBJECT INDEX

A

- Accessory pathways**
double accessory pathways in WPW syndrome, 1020
- Action potentials**
ionic currents underlying, 761
T wave and ventricular MAP shortening, 668
- Afterload lowering**
intravenous nitroglycerin in AMI, 132
- Alcian positive**
AMI in toxic cardiomyopathy, 453
- Alcohol**
echocardiography of effects of alcohol on LV function, 535
ethanol and myocardial depression in normal subjects, 1144
- Alcoholism**
AMI in toxic cardiomyopathy, 453
- Aldosterone**
splanchnic blood flow in hypertension, 1114
- Ameroid constrictors**
nitroglycerin in ischemia and coronary disease, 632
- Amyloidosis, cardiac**
bacterial endocarditis in older persons, 174
- Anatomically corrected malposition**
of the great arteries, 20
- Aneurysms**
left ventricular, 567
- Angina pectoris**
dose response effectiveness of propranolol for treatment of, 964
effect of cold air inhalation, 1053
pathology of stable and unstable, 1059
prognosis in coronary artery disease, 146
unstable
pathology, 1059
transient ST-segment elevation, 1015
- Angiography**
anomalous left coronary artery originating from pulmonary artery, 976
echocardiogram of anterior leaflet of mitral valve, 88
echocardiogram of early mitral valve closure in severe aortic insufficiency, 836
prognosis in coronary artery disease, 146
vascularization index to correlate angiographic and ventriculographic findings, 1071
- Angiotensin**
oral contraceptive hypertension, 916
- Animals**
dogs
changes in coronary vascular bed during coronary constriction, 1085
corrected sinus node recovery time, 797
echocardiogram of anterior leaflet of mitral valve, 88
effect of hypoglycemia on myocardial ischemic injury, 621
extracardiac His-Purkinje recordings, 802
malignant ventricular arrhythmia, 1003
mitral valve echogram and phasic mitral flow, 104
myocardial digoxin uptake in shock, 718
myocardial electrolyte derangements, 860
nitroglycerin in acute myocardial ischemia, 632
notching of QRS complexes, 257
T wave and ventricular MAP shortening, 668
pigs
ventricular fibrillation latency, 656
- Anomalous left coronary artery**
originating from pulmonary artery, 552, 976
- Anomalous venous return**
catheter positions in congenital anomalies, 749
- Anticoagulant therapy**
deep vein thrombosis, 8
- Antihypertensive drug withdrawal**
blood pressure rise after, 1107
- Aorta**
mitral valve-posterior aortic wall relationship, 594
- Aortic insufficiency**
diastolic vibration of interventricular septum, 589
echocardiography of early MV closure in severe aortic insufficiency, 836
prosthetic aortic valvular endocarditis, 940
- Aortic pressure curve**
systolic time intervals, 310
- Aortic regurgitation**
echocardiographic manifestations of aortic valve leaflets in bacterial endocarditis, 832
mitral prosthetic diastolic murmur, 402
- Aortic root**
radiographic abnormalities, 389
- Aortic stenosis**
apical A wave versus the fourth heart sound in assessing, 324
bacterial endocarditis in older persons, 174
radiographic views of aortic root, 389
return of normal conduction after paroxysmal heart block, 197
- Aortic valve**
closure
echocardiographic observations of second heart sound, 292
echocardiographic examination of LV, 1
echocardiographic manifestation of flail aortic valve leaflets in bacterial endocarditis, 832
platelet survival time following aortic valve replacement, 358
replacement
coronary collateral function in man, 118
systolic time intervals by echocardiography, 114
- Aortic valve disease**
coronary collateral function in man, 118
- Apexcardiography**
apical A wave versus fourth heart sound in assessing aortic stenosis, 324
clinical value of calibrated displacement, 541
- Apical displacement**
clinical value of calibrated displacement apexcardiography, 541
- Area ratio techniques**
measurement of left-to-right shunts, 1136
- Arrhythmias**
Cardiac Arrhythmias: Basic Concepts and an Approach to Self-Instruction (Rakita and Broder), 205
concealed bigeminy, 646
course of acute myocardial infarction, 410
heart rate as factor in genesis of ischemia-related arrhythmias, 951
malignant ventricular, 1003
paroxysmal supraventricular tachycardia, 234
pathogenesis of certain, 761
postoperative
treatment of TGA, 32
specific creatine phosphokinase isoenzyme in diagnosis of AMI, 855
supraventricular
echograms following electroversion, 273
Wolff-Parkinson-White syndrome, 767
- Arteries**
anatomically corrected malposition of the great arteries, 20
- Arteriography.** See Coronary arteriography
- Arteriosclerosis**
radiographic views of aortic root, 389
- ASH.** See Asymmetric septal hypertrophy
- Asplenia**
bronchial tomography and thoracic situs in congenital heart disease, 188
- Asymmetric septal hypertrophy (ASH)**
echocardiographic findings, 577
in LV outflow tract obstruction in dextro-transposition of great vessels, 515
sudden death and, 1149
surgical correction of, 951
- Asynergy**
improvement in LV wall motion following nitroglycerin, 140
LV response to postextrasystolic potentiation, 428
VCG and ECG in LV asynergy in CAD, 467
- Atherosclerosis**
changes in coronary vascular bed during coronary constriction, 1085
pathology of stable and unstable angina pectoris, 1059
- Atria**
echocardiography of tricuspid valve in congenital LV-RA fistula, 268
echographic assessment following electroversion of supraventricular arrhythmias, 273
left atrial myxomas, 342
stimulation
conduction delay in His bundle, 68
paroxysmal supraventricular tachycardia, 234

- Atrial extra-stimulus technique**
 paroxysmal supraventricular tachycardia, 234
 "supernormal conduction" of premature impulse utilizing fast pathway in dual A-V nodal pathways, 811
- Atrial fibrillation**
 echographic assessment following electroversion of supraventricular arrhythmias, 273
- Atrial pacing**
 corrected sinus node recovery time, 797
 effect on mitral valve prolapse, 988
 methods of evaluating LV function, 677
 "supernormal conduction" of premature impulse utilizing fast pathway in dual A-V nodal pathways, 811
- Atrial septal defects**
 catheter positions in congenital anomalies, 749
 radionuclide measurements, 1136
- Atrioventricular block**
 concealed retrograde conduction, 953
 conduction delay in His bundle, 68
 familial A-V heart block, 226
 supraventricular re-entrant tachycardias, 997
- Atrioventricular conduction**
 conduction delay in His bundle, 68
 effect of digoxin, 251
 familial A-V heart block, 226
 "supernormal conduction" of premature impulse utilizing fast pathway in dual A-V nodal pathways, 811
 supraventricular re-entrant tachycardias, 997
- Atrioventricular escape rhythms**
 familial congenital heart block, 379
- Atrioventricular node**
 asymmetrical hypertrophy and sudden death, 1149
 conduction, 446
 role of slow current in cardiac electrophysiology, 761
 familial congenital heart block, 379
 infarction
 conduction system in sudden death, 446
 loop connections, 743
 palpitations and sudden death, 743
 re-entrance
 paroxysmal supraventricular tachycardia, 234
 "supernormal conduction" of premature impulse utilizing fast pathway in dual A-V nodal pathways, 811
- Atropine**
 conduction delay in His bundle, 68
 familial A-V heart block, 226
- Auscultation**
 apical A wave versus fourth heart sound in assessing aortic stenosis, 324
 echocardiographic observations of second heart sound, 292
 echo-phono findings in mitral valve prolapse, 522
 pacing effects in mitral valve prolapse, 988
 postural changes in mid-systolic click-late systolic murmur syndrome, 165
 splitting of second heart sound, 157
- Austin Flint murmur**
 echocardiography of early mitral valve closure in aortic insufficiency, 836
 genesis of, 402
- Automaticity**
 role of slow current in cardiac electrophysiology, 761
- Autonomic nervous system**
 effect of digoxin on A-V conduction, 251
- Autopsy reports**
 conduction system in sudden death, 446
 reporting system on patients evaluated for coronary artery disease, April, 1975, page 17
- B**
- Bacteremia**
 bacterial endocarditis, 581
- Bacterial endocarditis**
 echocardiographic detection of tricuspid valve prolapse, 823
 echocardiographic manifestations of aortic valve leaflets in, 832
 forty-year review in infancy and childhood, 581
 premature pulmonic valve opening following sinus of Valsalva aneurysm, 556
 prosthetic aortic valvular endocarditis, 940
 in subjects 60 years of age and older, 174
- Balloon atrial septostomy**
 treatment of TGA, 32
- Baroreceptor reflex**
 reduced baroreceptor sensitivity in borderline hypertension, 738
- Beta-adrenergic blockade**
 dose response effectiveness of propranolol for angina, 964
- Beta-adrenergic stimulation**
 corrected sinus node recovery time, 797
- Bifascicular block**
 left anterior hemiblock and RBBB following repair of tetralogy of Fallot, 1026
- Bigeminy, concealed**
 three variants, 646
- Bilateral bundle branch block**
 return of normal conduction after paroxysmal heart block, 197
- Biofeedback**
 learned control of blood pressure, 370
- Biophysics**
Physiology and Biophysics II: Circulation, Respiration and Fluid Balance (ed. by Ruch and Patton), 574
- Blalock-Hanlon procedure**
 treatment of TGA, 32
- Block, heart**
 bilateral bundle branch block
 return of normal conduction after paroxysmal heart block, 197
 bundle branch
 clinical and follow-up study, 477
 electrophysiological studies of rate dependent BBB, 244
 familial atrioventricular heart block, 226
 familial congenital heart block, 379
 lack of sensing by demand pacemakers due to intraventricular conduction defects, 815
 letter from Sir James Mackenzie to Dr. Carter Smith, Sr., 212
 return of normal conduction after paroxysmal heart block, 197
 unidirectional
 analysis of re-entry mechanisms in concealed WPW syndrome, 75
- Blood flow**
 effect of intracoronary injection of contrast medium upon coronary blood flow, 442
 splanchnic blood flow in hypertension, 1114
 viscosity changes after AMI, 1079
- Blood pool scanning**
 hemodynamic and prognostic findings in transmural and non-transmural MI, 1064
- Blood pressure**
 continuous recording of direct arterial pressure, 1101
 learned control of, 370
 return of elevated blood pressure after withdrawal of antihypertensive drugs, 1107
- Blood sugar**
 coronary risk factor screening, 1038
- Book reviews**, 205, 573, 758, 1167
- Books received**, 207
- Bradycardia**
 Purkinje repolarization and U wave, 1030
- Bradycardia-dependent block**
 conduction delay in His bundle, 68
- Brain edema**
 glycerol infusion during shock, 701
- Bronchial anatomy**
 measurement of bronchi by tomography as indicator of thoracic situs, 188
- Bundle branch block**
 clinical and follow-up study of right and left BBB, 477
 during tachycardia, 1172
 factors influencing prognosis of BBB complicating acute antero-septal infarction, 1170
 rate dependent BBB, 244
 return of normal conduction after paroxysmal heart block, 197

CIRCULATION

VOLUMES 51 AND 52

January-December, 1975

CARDIOVASCULAR SURGERY 1974

No. 1 (August)

Foreword

John Hines Kennedy	I-1
Depressed Cardiac Performance After Mitral Valve Replacement: A Problem of Myocardial Preservation During Operation	
James V. Maloney, Jr., Norman Cooper, Donald J. Mulder and Gerald D. Buckberg	I-3
Effect of Cardiotonic and Vasoactive Drugs on Transmural Flow Dis- tribution and Ventricular Volume in the Fibrillating Heart on Cardio- pulmonary Bypass	
Joe R. Utley, Gwendolyn Michalsky, Richard C. Treat, Kazi Mobin- Uddin, and Alfred Perlin	I-9
Histochemical and Structural Changes in Human Myocardial Cells After Cardiopulmonary Bypass	
Neville Bittar, Joseph R. Koke, Herbert A. Berkoff, and Donald R. Kahn	I-16
Comparative Hemodynamic Responses to Chlorpromazine, Nitro- prusside, Nitroglycerin, and Trimethaphan Immediately After Open- Heart Operations	
Edward B. Stinson, E. L. Holloway, G. Derby, P. E. Oyer, J. Hollings- worth, R. B. Griep, and D. C. Harrison	I-26
Simultaneous Operative Correction of Aortic Valve Stenosis and Idiopathic Hypertrophic Subaortic Stenosis	
Scott Stewart, Navin Nanda, and James DeWeese	I-34
Functional Evaluation of the Procine Heterograft in the Mitral Position	
Allen D. Johnson, Pat O. Daily, Kirk L. Peterson, Martin LeWinter, George J. DiDonna, Grace Blair, and Gen Niwayama	I-40
Rheumatic Mitral Regurgitation: The Case for Annuloplasty in the Pediatric Age Group	
J. Geoffrey Stevenson, Isamu Kawabori, Beverly C. Morgan, David H. Dillard, K. Alvin Merendino, and Warren G. Guntheroth	I-49
Cerebral Effects of Profound Hypothermia (18°C) and Circulatory Arrest	
Minoru Aoyagi, Allen H. Flasterstein, Judy Barnette, Lear Von Koch, James N. Ross, Jr., and John Hines Kennedy	I-52
Results of Reoperation for Unsuccessful Coronary Artery Bypass Surgery	
Roger A. Winkle, Edwin L. Alderman, Norman E. Shumway, and Donald C. Harrison	I-61

(Continued)

S-III

Saphenous Vein Bypass Grafting: Changes in Native Circulation and Collaterals	
Peter R. McLaughlin, Neil D. Berman, Brian C. Morton, Michael J. McLoughlin, Harold E. Aldridge, Allan G. Adelman, Bernard S. Goldman, Alan S. Trimble, and John E. Morch	I-66
Blood Flow and Vasoactive Drug Effects in Internal Mammary and Venous Bypass Grafts	
John R. McCormick, Masamitsu Kaneko, Arthur E. Baue, and Alexander S. Geha	I-72
Improved Angina Threshold and Coronary Reserve Following Direct Myocardial Revascularization	
Kanu Chatterjee, Jack M. Matloff, H. J. C. Swan, William Ganz, Hector Sustaita, Peter Magnusson, Neil Buchbinder, Marc Henis and James S. Forrester	I-81
Postoperative Hemodynamics Following Aortic Cross-Clamping During Aortocoronary Bypass Surgery	
Randall B. Griep, Edward B. Stinson, Philip Oyer, Jack Copeland, and Norman E. Shumway	I-93
Changes in Survival and Symptom Relief in a Longitudinal Study of Patients After Bypass Surgery	
Paul L. Tecklenberg, Edwin L. Alderman, Craig Miller, Norman E. Shumway, and Donald C. Harrison	I-98
Influence of Surgery on Survival in 145 Patients with Left Main Coronary Artery Disease	
James V. Talano, Patrick J. Scanlon, William R. Meadows, Mushtaq Kahn, Roque Pifarre, and Rolf M. Gunnar	I-105
Left Main Coronary Artery Obstruction: Follow-up of Thirty Patients With and Without Surgery	
Ruey J. Sung, Stephen M. Mallon, Stanley E. Richter, Ali E. Ghahramani, Leonard S. Sommer, Gerard A. Kaiser, and Robert J. Myerburg	I-112
Myocardial Damage in Combined Valvular and Coronary Bypass Surgery	
Stephen J. Rossiter, Herbert N. Hultgren, Jon C. Kosek, Robert D. Wuerfle, and William W. Angell	I-119
Valve Replacement and Myocardial Revascularization: Results of Combined Operation in 59 Patients	
Thomas J. Berger, Robert B. Karp, and Nicholas T. Kouchoukos	I-126
Prospective Randomized Study of Coronary Bypass Surgery in Stable Angina: The First 100 Patients	
Virendra S. Mathur and Gene A. Guinn	I-133
Long-term Survival Following Coronary Bypass Surgery in Patients with Significant Impairment of Left Ventricular Function	
O. Wayne Isom, Frank C. Spencer, Ephraim Glassman, Judith M. Dembrow, and Bernard S. Pasternack	I-141
Effects of Partial Obstruction on Phasic Flow in Aortocoronary Grafts	
John D. Folts, Donald R. Kahn, Neville Bittar and George G. Rowe	I-148
The Spectrum of Exercise Test and Angiographic Correlations in Myocardial Revascularization Surgery	
Wayne Siegel, Juan S. Lim, William L. Proudfit, William C. Sheldon, and Floyd D. Loop	I-156
Effect of Blood Flow Rate on Subendothelial Proliferation in Venous Autografts Used as Arterial Substitutes	
Scott L. Faulkner, R. Darryl Fisher, David M. Conkle, David L. Page, and Harvey W. Bender, Jr.	I-163
Coronary Bypass Surgery: Value of Maximal Exercise Testing in Assessment of Results	
Arthur J. Merrill, Jr., Charles Thomas, Eliot Schechter, Robert Cline, Ray Armstrong and William Stanford	I-173
Nonmechanical Factors Affecting Aortocoronary Vein Graft Flow	
G. Frank O. Tyers, Martin J. O'Neill, Jean T. Messner, and John A. Waldhausen	I-178
Combined Gas Endarterectomy and Coronary Artery Bypass Graft: A Follow-up Study	
Magdi H. Yacoub, Eid Fawzy, Humphrey Anyanwu and Malcolm Towers	I-182

(Continued)

Noninvasive Assessment of Aorta-Coronary Saphenous Vein Graft Patency Using Directional Doppler	
Z. Adam Pisko-Dubienski, Ronald J. Baird, and Donald R. Wilson	I-188
Myocardial Infarction in Coronary Artery Surgery	
Brian C. Morton, Peter R. McLaughlin, Alan S. Trimble and John E. Morch	I-198
Ascending Aortic Aneurysms: Review of 100 Consecutive Cases	
John E. Liddicoat, Szabolcs M. Bekassy, Pedro A. Rubio, George P. Noon, and Michael E. DeBakey	I-202
Logistic and Technical Considerations in the Treatment of the Wounded Heart	
Kenneth L. Mattox, Lear Von Koch, Arthur C. Beall, Jr., and Michael E. DeBakey	I-210
Myocardial Blood Flow Following pass Surgery	
A. D. Goldberg, J. C. W. Crawley, E. and Magdi H. Yacoub	I-215

Abstracts for the 48th Scientific Sessions,

Scientific Sessions for Nurses,

29th Annual Meeting,

Council on Arteriosclerosis — American Society for the Study of Arteriosclerosis

No. 2 (October)

SUDDEN CORONARY DEATH OUTSIDE HOSPITAL

No. 3 (December)

I. THE BURDEN TO THE COMMUNITY	III-1
Chairman: James Warren	
Demographic Characteristics and Trends in Arteriosclerotic Heart Disease Mortality: Sudden Death and Myocardial Infarction	
L. Kuller, J. Perper, and M. Cooper	III-1
Discussion	III-11
Changes in Life Expectancy Since 1900	
Manning Feinleib	III-16
II. THE PATHOPHYSIOLOGY	III-18
Chairman: Jesse Edwards	
Anatomical Pathology of Sudden Unexpected Cardiac Death	
Colin J. Schwartz and Ross G. Gerrity	III-18
Arteriosclerosis of Coronary Arteries in Sudden, Unexpected Deaths	
Joshua A. Perper, Lewis H. Kuller, and Malcolm Cooper	III-27
The Pathogenesis of Coronary Plaques, Thromboses, and Hemorrhages: An Evaluative Review	
Meyer Friedman	III-34
Pathology of the Myocardium and the Conduction System in Sudden Coronary Death	
J. T. Lie, and J. L. Titus	III-41
Pathology of Atherosclerotic Heart Disease in Sudden Death	
Nobuhisa Baba, Winslow J. Bashe, Jr., Martin D. Keller, Jack C. Geer, and Joseph R. Anthony	III-53
Myocardial Cell Necrosis and Sudden Death in Humans	
Dennis D. Reichenbach and Ned S. Moss	III-60
Pathology of Atherosclerotic Heart Disease in Sudden Death	
Winslow J. Bashe, Jr., Nobuhisa Baba and Martin D. Keller	III-63

(Continued)

Discussion	III-69
Methodological Considerations for the Study of Sudden Cardiac Death: An Autopsy Protocol	
Colin J. Schwartz, Richard H. Lovell, Michael F. Oliver, and Oglesby Paul	III-78
III. THE ELECTROPHYSIOLOGY OF LETHAL ARRHYTHMIAS	III-96
Chairman: Howard Burchell	
Possible Electrophysiological Mechanisms for Lethal Arrhythmias Accompanying Myocardial Ischemia and Infarction	
Andrew L. Wit and J. Thomas Bigger, Jr.	III-96
The Nervous System and Cardiac Arrhythmias	
J. A. Abildskov	III-116
Electrophysiological Mechanisms Involved in Ventricular Fibrillation	
Douglas P. Zipes	III-120
Validity of Myocardial Infarction Models	
Harry A. Fozzard	III-131
Discussion	III-138
IV. THE INDICATORS OF RISK	III-147
Chairman: Ogelsby Paul	
Profile of High Risk in People Known to Have Coronary Heart Disease: A Review	
Arthur J. Moss	III-147
Prodromal Symptoms and Signs of Sudden Death	
Manning Feinleib, Arthur B. Simon, Richard F. Gillum and James R. Margolis	III-155
Time, Place, Event of Sudden Death	
Thomas Killip	III-160
Predictors of Sudden Cardiac Death	
Gary D. Friedman, Arthur L. Klatsky and A. B. Siegelau	III-164
Sudden Death in Patients Evaluated for Ischemic Heart Disease	
A. Oberman, M. Ray, M. E. Turner, G. Barnes, and C. Grooms	III-170
Discussion	III-172
Profile of Risk of Sudden Death in Apparently Healthy People	
Joseph T. Doyle	III-176
Sudden Death Due to Coronary Artery Disease — A Clinical, Hemodynamic and Angiographic Profile	
James R. Margolis, John W. Hirshfeld, Jr., J. Frederick McNeer, C. Frank Starmer, Robert A. Rosati, Robert H. Peter, Victor S. Behar, and Yihong Kong	III-180
Discussion	III-183
V. MONITORING FOR SERIOUS ARRHYTHMIAS	III-189
Chairman: Richard Ross	
Monitoring for Serious Arrhythmias and High Risk of Sudden Death	
Bernard Lown, Allan F. Calvert, Robert Armington, and Michael Ryan	III-189
Ventricular Premature Beats and Mortality of Men with Coronary Heart Disease	
William Ruberman, Eva Weinblatt, Charles W. Frank, Judith D. Goldberg, Sam Shapiro and Charles L. Feldman	III-199
Discussion	III-201
Prognostic Grading and Significance of Ventricular Premature Beats After Recovery From Myocardial Infarction	
Arthur J. Moss, John DeCamilla, William Mietlowski, William A. Greene, Sidney Goldstein, and Richard Locksley	III-204
Ventricular Premature Beats in a Population Sample — Frequency and Associations with Coronary Risk Characteristics	
Richard S. Crow, Ronald J. Prineas, Virgil Dias, Henry L. Taylor, David Jacobs, and Henry Blackburn	III-211
VI. EMERGENCY CARE	III-216
Chairman: Richard Ross	
Emergency Care	
Eugene L. Nagle, Richard R. Liberthson, Jim C. Hirschman, and Sidney R. Nussenfeld	III-216

(Continued)

CONTENTS OF SUPPLEMENTS

S-VII

Coronary Revascularization in Patients Surviving Unexpected Ventricular Fibrillation	
Robert J. Myerburg, Ali Ghahramani, Stephen M. Mallon, Agustin Castellanos, Jr., and Gerard Kaiser	III-219
Discussion	III-221
Resuscitation From Out-of-Hospital Ventricular Fibrillation: 4 Years Follow-up	
Leonard A. Cobb, Robert S. Baum, Hernan Alvarez III, and William A. Schaffer	III-223
Discussion	III-229
VII. DRUG THERAPY	III-236
Chairman: Richard Lovell	
Arrhythmia Prophylaxis: Long-Term Suppressive Medication	
Richard R. H. Lovell	III-236
Pharmacologic Modification of Arrhythmias After Experimentally Induced Acute Myocardial Infarction Drugs Acting on the Nervous System	
B. R. Lucchesi and F. J. Kniffen	III-241
Problems in Design and Evaluation of Antiarrhythmia Trials	
Ronald J. Prineas	III-248
Discussion	III-251
VIII. PRIMARY PREVENTION	III-258
Chairman: Henry Blackburn	
Primary Prevention of Sudden Coronary Death	
Jeremiah Stamler	III-258
Discussion	III-274
Author Index	III-281
Subject Index	III-283

SUPPLEMENTS TO CIRCULATION

VOLUMES 51 and 52

JANUARY-DECEMBER, 1975

Indexes to ABSTRACTS, AHA 48th Scientific Sessions, Supplement II, October 1975 and Sudden Coronary Death Outside Hospital, Supplement III, December 1975 are included in those issues.

SUPPLEMENTS TO CIRCULATION

VOLUMES 51 AND 52

JANUARY-DECEMBER, 1975

Indexes to ABSTRACTS, AHA 48th Scientific Sessions, Supplement II, October 1975 and Sudden Coronary Death Outside Hospital, Supplement III, December, 1975 are included in those issues.

SUPPLEMENT SUBJECT INDEX

A

- Acid hematein reaction**
 - histochemical and structural changes in myocardial cells after cardiopulmonary bypass, I-16
- Actuarial studies**
 - changes in survival and symptom relief after bypass surgery, I-98
 - combined gas endarterectomy and coronary artery bypass graft, I-182
- Afterload reduction**
 - hemodynamic responses to vasodilators after open-heart surgery, I-26
- Aneurysms**
 - of ascending aorta, I-202
- Angina pectoris**
 - combined gas endarterectomy and coronary artery bypass graft, I-182
 - improved angina threshold and coronary reserve following direct myocardial revascularization, I-81
 - left main coronary artery obstruction, I-112
 - longitudinal study after bypass surgery, I-98, I-133
 - long-term survival following coronary bypass surgery in patients with significant impairment of LV function, I-141
 - medical versus surgical treatment, I-98, I-133
 - prospective randomized study of coronary bypass surgery in stable angina, I-133
 - reoperations for unsuccessful coronary artery bypass surgery, I-61
 - value of maximal exercise testing in assessment of results of coronary bypass surgery, I-173
- Angiography**
 - combined gas endarterectomy and coronary artery bypass graft, I-182
 - myocardial revascularization surgery, I-156
- Angiotensin**
 - effect on flow and volume during cardiopulmonary bypass, I-9
- Animal studies**
 - baboons
 - cerebral effects of hypothermia and circulatory arrest, I-52
 - dogs
 - blood flow and vasoactive drug effects in bypass grafts, I-72
 - effect of blood flow rate on subendothelial proliferation in venous autografts, I-163
 - effect of cardiogenic and vasoactive drugs on transmural blood flow, I-9
 - effects of partial obstruction on phasic flow in aortocoronary grafts, I-148
- Annuloplasty**
 - for rheumatic mitral regurgitation in children, I-49
- Aortic aneurysms**
 - management of, I-202
- Aortic cross-clamping**
 - during aortocoronary bypass surgery
 - postoperative hemodynamics following, I-93
 - histochemical and structural changes in myocardial cells, I-16
 - myocardial damage in combined valvular and coronary bypass surgery, I-119
- Aortic valve**
 - replacement
 - ascending aortic aneurysms, I-202
 - myocardial damage in combined valvular and coronary bypass surgery, I-119

- and myocardial revascularization, I-126
 - simultaneous correction of AVS and IHSS, I-34
- Aortic valve stenosis**
 - simultaneous correction of idiopathic hypertrophic subaortic stenosis and, I-34
- Aortocoronary bypass surgery**
 - aortic-cross clamping during, I-16, I-119
 - postoperative hemodynamics following, I-93
 - ascending aortic aneurysms, I-202
 - effects of partial obstruction on phasic flow, I-148
 - improved angina threshold and coronary reserve following myocardial revascularization, I-81
 - left main coronary artery obstruction, I-112
 - noninvasive assessment of graft patency using directional Doppler, I-188
 - nonmechanical factors affecting flow, I-178
 - saphenous vein bypass grafting, I-66
- Arterial stenosis**
 - effect of blood flow rate on subendothelial proliferation in venous autografts, I-163
- Arteriovenous fistula**
 - effect of blood flow rate on subendothelial proliferation in venous autografts, I-163
- Atherosclerosis**
 - ascending aortic aneurysms, I-202
- Atrial pacing stress**
 - improved angina threshold and coronary reserve following myocardial revascularization, I-81
 - prospective randomized study of coronary bypass surgery in stable angina, I-133

B

- Beating nonworking heart**
 - myocardial preservation during operation, I-3
- Biopsies**
 - postbypass, I-16
- Blood flow**
 - effect of cardiogenic and vasoactive drugs on transmural blood flow, I-9
 - effect of rate on subendothelial proliferation in venous autografts used as arterial substitutes, I-163
 - effects of partial obstruction on phasic flow in aortocoronary grafts, I-148
 - myocardial blood flow following saphenous vein bypass surgery, I-215
 - regional
 - cerebral effects of hypothermia and circulatory arrest, I-52
 - saphenous vein bypass grafting: changes in circulation and collaterals, I-66
 - vasoactive drug and blood flow effects in internal mammary and venous bypass grafts, I-72

C

- Calcium**
 - effect on flow and volume in fibrillating heart on cardiopulmonary bypass, I-9
- Cardiac output**
 - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72

- Cardiac performance
 - after mitral valve replacement, I-3
- Cardiorrhaphy
 - treatment of wounded heart, I-210
- Cardiopulmonary bypass
 - aortic cross-clamping, I-119
 - histochemical and structural changes in myocardial cells, I-16
 - ascending aortic aneurysms, I-202
 - cerebral effects of hypothermia and circulatory arrest, I-52
 - depressed cardiac performance after mitral valve replacement, I-3
 - effects of drugs on transmural flow distribution and ventricular volume in fibrillating heart, I-9
 - myocardial infarction in coronary artery surgery, I-198
 - myocardial preservation during operation, I-3
 - nonmechanical factors affecting aortocoronary vein graft flow, I-178
- Catheterization
 - left main coronary artery obstruction, I-112
- Cell volume regulation
 - after cardiopulmonary bypass, I-16
- Cerebral effects
 - of profound hypothermia and circulatory arrest, I-52
- Chest pain
 - changes in survival and symptom relief in longitudinal study after bypass surgery, I-98
- Children and infants
 - cerebral effects of hypothermia and circulatory arrest, I-52
 - rheumatic mitral regurgitation, I-49
- Chlorpromazine
 - hemodynamic responses after open-heart surgery, I-26
- Circulation
 - saphenous vein bypass grafting: changes in circulation and collaterals, I-66
 - See also Blood flow
- Circulatory arrest
 - cerebral effects of hypothermia and, I-52
- Collateral vessels
 - left main coronary artery disease, I-105
 - saphenous vein bypass grafting: changes in circulation and collaterals, I-66
- Congenital abnormalities
 - AVS and IHSS, I-34
- Congestive heart failure
 - combined gas endarterectomy and coronary artery bypass graft, I-182
 - longitudinal study after bypass studies, I-98
- Coronary arteriography
 - left main coronary artery obstruction, I-105, I-112
 - nonmechanical factors affecting aortocoronary vein graft flow, I-178
 - value of maximal exercise testing in assessing results of coronary bypass surgery, I-173
 - valve replacement and myocardial revascularization, I-126
- Coronary artery bypass surgery
 - combined gas endarterectomy and, I-182
 - exercise testing in assessment of results, I-173
 - exercise test and angiographic correlations in myocardial revascularization surgery, I-156
 - long-term survival following, in patients with impairment of LV function, I-141
 - myocardial damage in combined valvular and coronary bypass surgery, I-119
 - myocardial infarction and, I-198
 - prospective randomized study in stable angina, I-133
 - results of reoperation for unsuccessful surgery, I-61
 - valve replacement and myocardial revascularization, I-126
- Coronary artery disease
 - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72
 - improved angina threshold and coronary reserve following direct myocardial revascularization, I-81
 - left main coronary artery obstruction
 - follow-up study with and without surgery, I-112
 - influence of surgery on survival, I-105
 - myocardial blood flow following saphenous vein bypass surgery, I-215
 - results of reoperation for unsuccessful coronary artery bypass surgery, I-61
 - saphenous vein bypass grafting: changes in circulation and collaterals, I-66
 - value of maximal exercise testing in assessing coronary bypass surgery, I-173

- Coronary heart disease
 - atherosclerotic, I-156
- Coronary vascular resistance
 - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72

D

- Depressed cardiac performance
 - after mitral valve replacement, I-3
- Diastolic/systolic flow ratio
 - effects of partial obstruction on phasic flow in aortocoronary grafts, I-148
- Doppler technique
 - noninvasive assessment of aorta-coronary saphenous vein bypass graft patency, I-188

E

- Echocardiography
 - simultaneous operative correction of AVS and IHSS, I-34
- Epicardial "steal"
 - effect of cardiogenic and vasoactive drugs on vascular and compressive resistance, I-9
- Epicardium
 - effects of drugs on transmural flow and ventricular volume after cardiopulmonary bypass, I-9
- Epinephrine
 - effect on flow and volume during cardiopulmonary bypass, I-9
 - effects in internal mammary and venous bypass grafts, I-72
- Exercise tests
 - and angiographic correlations in myocardial revascularization surgery, I-156
 - in assessment of results of coronary bypass surgery, I-173
 - prospective randomized study of coronary bypass surgery in stable angina, I-133

F

- Fibrillation time
 - myocardial damage in combined valvular and coronary bypass surgery, I-119
- Follow-up studies
 - changes in survival and symptom relief after bypass surgery, I-98
 - combined gas endarterectomy and coronary artery bypass graft, I-182
 - left main coronary artery obstruction, I-112
 - prospective randomized study of coronary bypass surgery in stable angina, I-133

G

- Gas endarterectomy
 - coronary artery bypass graft and, I-182
- Glutaraldehyde-fixed porcine heterografts
 - for mitral valve replacement, I-40
- Glycogen
 - histochemical and structural changes in myocardial cells after cardiopulmonary bypass, I-16
- Graft patency
 - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72
 - combined gas endarterectomy and coronary artery bypass graft, I-182
 - effects of partial obstruction on phasic flow in aortocoronary grafts, I-148
 - exercise test and angiographic correlations in myocardial revascularization surgery, I-156
 - glutaraldehyde-fixed porcine heterografts, I-40
 - intraoperative graft flow measurements, I-178
 - myocardial infarction in coronary artery surgery, I-198
 - noninvasive assessment of aorta-coronary saphenous vein bypass graft patency using directional Doppler, I-188
 - results of reoperation for unsuccessful coronary artery bypass surgery, I-61
 - saphenous vein bypass grafting, I-188
 - changes in circulation and collaterals, I-66
- Gunshot wounds
 - treatment of wounded heart, I-210

H

- Heart wounds
 - logistic and technical considerations in treatment of, I-210

Hemodilution

- depressed cardiac performance after mitral valve replacement, 1-3

Histochemical changes

- in myocardial cells after cardiopulmonary bypass, 1-16

Hyperemia

- cerebral effects of hypothermia and circulatory arrest, 1-52
- effects of partial obstruction on phasic flow in aortocoronary grafts, 1-148

Hypertrophy, left ventricular

- myocardial damage in combined valvular and coronary bypass surgery, 1-119

Hypothermia

- cerebral effects of circulatory arrest and, 1-52

I**Idiopathic hypertrophic subaortic stenosis**

- simultaneous correction of aortic valve stenosis and, 1-34

Ischemia

- exercise test and angiographic correlations in myocardial revascularization surgery, 1-156

Ischemic arrest

- depressed cardiac performance after mitral valve replacement, 1-3

Ischemic heart disease

- prospective randomized study of coronary bypass surgery in stable angina, 1-133
- value of maximal exercise testing in assessment of results of coronary bypass surgery, 1-173

Isoproterenol

- effects in internal mammary and venous bypass grafts, 1-72
- effects on flow and volume during cardiopulmonary bypass, 1-9

L**Lactacidosis**

- cerebral effects of hypothermia and circulatory arrest, 1-52

Lactate metabolism

- improve angina threshold and coronary reserve following myocardial revascularization, 1-81

Left main coronary artery obstruction

- follow-up study, 1-112
- influence of surgery on survival, 1-105

Left ventricle

- hypertrophy, 1-119
- hypokinetic, survival following coronary bypass surgery, 1-141
- left main coronary artery disease, 1-105
- myocardial damage in combined valvular and coronary bypass surgery, 1-119
- outflow tract obstruction, simultaneous correction of AVS and IHSS, 1-34

M**Mammary artery grafts**

- blood flow and vasoactive drug effects, 1-72

Marfan's disorder

- ascending aortic aneurysms, 1-202

Mitochondria

- changes in human myocardial cells after cardiopulmonary bypass, 1-16

Mitral regurgitation

- mitral annuloplasty for, 1-49

Mitral stenosis

- glutaraldehyde-fixed porcine heterografts for mitral valve replacement, 1-40

Mitral valve

- replacement
 - depressed cardiac performance after, 1-3
 - glutaraldehyde-fixed porcine heterografts, 1-40
 - myocardial damage in combined valvular and coronary bypass surgery, 1-119
 - and myocardial revascularization, 1-126
 - rheumatic mitral regurgitation, 1-49

Morphology

- changes in myocardial cells after cardiopulmonary bypass, 1-16

Myocardial infarction

- changes in survival and symptom relief after bypass surgery, 1-98
- combined gas endarterectomy and coronary artery bypass graft, 1-182
- in coronary artery surgery, 1-198

- myocardial damage in combined valvular and coronary bypass surgery, 1-119

Myocardium

- compression, effects of cardiogenic and vasoactive drugs on transmural flow and ventricular volume during cardiopulmonary bypass, 1-9
- damage in combined valvular and coronary bypass surgery, 1-119
- necrosis, effect of drugs on flow and volume during cardiopulmonary bypass, 1-9
- oxygen consumption, blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, 1-72
- preservation during operation, 1-3
- revascularization
 - combined gas endarterectomy and coronary artery bypass graft, 1-182
 - exercise test and angiographic correlations in, 1-156
 - improved angina threshold and coronary reserve post-operatively, 1-81
 - valve replacement and, 1-126

N**Neurological abnormalities**

- following hypothermia and circulatory arrest, 1-52

Nitroglycerine

- hemodynamic responses after open-heart surgery, 1-26

Nitroprusside

- hemodynamic responses after open-heart surgery, 1-26

Noninvasive monitoring

- of patency of aorta-coronary bypass grafts using directional Doppler, 1-188

Nonworking heart

- myocardial preservation during operation, 1-3
- nonmechanical factors affecting aortocoronary vein graft flow, 1-178

O**Obstruction of left main coronary artery**

- follow-up study, 1-112
- influence of surgery on survival, 1-105

Obstructive coronary artery disease

- improved angina threshold and coronary reserve following myocardial revascularization, 1-81
- progression in grafted vessels, 1-66, 1-133

Open-heart surgery

- hemodynamic responses of vasodilators after, 1-26

Ouabain

- effect on flow and volume during cardiopulmonary bypass, 1-9

Oxygen consumption, myocardial

- improved angina threshold and coronary reserve following myocardial revascularization, 1-81
- internal mammary and venous bypass grafts, 1-72

P**Penetrating heart injuries**

- treatment of wounded heart, 1-210

Phenylephrine

- effects in internal mammary and venous bypass grafts, 1-72

Phosphorylase

- changes in myocardial cells after cardiopulmonary bypass, 1-16

Propranolol

- nonmechanical factors affecting aortocoronary vein graft flow, 1-178

Prostheses

- glutaraldehyde-fixed porcine heterografts for mitral valve replacement, 1-40

R**Radioactive microspheres**

- cerebral effects of hypothermia and circulatory arrest, 1-52

Rheumatic heart disease

- mitral annuloplasty in children, 1-49

Ruptured heart

- treatment of wounded heart, 1-210

S**Saphenous vein bypass grafts**

- blood flow and vasoactive drug effects, 1-72

- changes in circulation and collaterals, I-66
- effect of blood flow rate on subendothelial proliferation, I-163
- effects of partial obstruction on phasic flow in aortocoronary grafts, I-148
- follow-up studies, I-98
- left main coronary artery obstruction, I-112
- myocardial blood flow following, I-215
- noninvasive assessment of graft patency using directional Doppler, I-188
- prospective randomized study of coronary bypass surgery in stable angina, I-133
- valve replacement and myocardial revascularization, I-126
- Septal myectomy**
 - simultaneous correction of AVS and IHSS, I-34
- Stab wounds**
 - treatment of wounded heart, I-210
- Subendocardium**
 - effects of drugs on transmural flow distribution after cardiopulmonary bypass, I-9
- Subendothelial proliferation**
 - in autogenous vein grafts, I-163
- Survival**
 - changes in survival and symptom relief after bypass surgery, I-98
 - following coronary bypass surgery of patients with significant impairment of LV function, I-141
 - left main coronary artery disease, I-105

T

- Thromboembolism**
 - functional evaluation of porcine heterographs in mitral position, I-40
- Trauma**
 - treatment of wounded heart, I-210
- Trimethaphan**
 - hemodynamic responses after open-heart surgery, I-26

U

- Ultrasound**
 - noninvasive assessment of aorta-coronary saphenous vein bypass graft patency using directional Doppler, I-188

V

- Valve replacement**
 - myocardial damage in combined valvular and coronary bypass surgery, I-119
 - myocardial preservation during operation, I-3
 - and myocardial revascularization, I-126
- Vascular resistance**
 - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72
 - effect of drugs on transmural flow and ventricular volume, I-9
- Vasoactive drugs**
 - effects of blood flow and, in internal mammary and venous bypass grafts, I-72
 - effects of cardiotoxic and, on transmural blood flow, I-9
- Vasodilators**
 - comparative hemodynamic responses after open-heart surgery, I-26
- Vein bypass grafts**
 - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72
 - effect of blood flow rate on subendothelial proliferations in venous autografts used as arterial substitutes, I-163
- Ventricular fibrillation**
 - effects of drugs on transmural flow distribution and ventricular volume after cardiopulmonary bypass, I-9
 - myocardial preservation during operation, I-3
 - nonmechanical factors affecting aortocoronary vein graft flow, I-178
- Ventricular function**
 - hemodynamic responses to vasodilators after open-heart surgery, I-26
 - myocardial infarction in coronary artery surgery, I-198

W

- Wounded heart**
 - treatment of, I-210

X

- Xenon clearance technique**
 - myocardial blood flow following saphenous vein bypass surgery, I-215
